

SUU Proposed Bylaw Changes May 2013

Mission Statement:

The mission of the Society of University Urologists is to provide leadership and representation for academic urologists. The Society provides a forum to examine, discuss and establish policy for academic urology practice and provide a mechanism for improving urologic teaching, research, practice and patient care. The SUU will provide a vehicle for faculty development, clinical and laboratory research, urologic education, academic health policy and will encourage the highest quality urologic care.

Vision Statement:

The Society of University Urologists seeks to be the world's leading and innovative society for academic urologists.
