**SUU Target Audience:** This one-day conference is designed to inform academic urologists involved in the development and implementation of urology residency programs. The conference should be of special interest to those physicians involved in the education, supervision and evaluation of urology residents.

**Goals:** The goal of this meeting is to discuss the current match system as well as alternative systems due to the current dissatisfaction among residency programs. It will also inform attendees on ways to improve their selection process of residents into their programs. The program share a variety of viewpoints regarding sub-specialization in urology and what that will mean for the academic urologist and the urologist practicing in the community.

**Educational Objectives:** At completion of this program, the participant should be able to:

1. Identify the pros and cons of the available match processes for urology.
2. Improve resident selection process within attendee's institution.
3. Understand the impact of the Certificate of Added Qualification (CAQ) in sub-specialized urology.

**SUCPD Needs:** This half-day conference is for academic urology faculty, urology department and division Chairs, and Residency and Fellowship Program Directors. This conference will focus upon updates and changes for Urology training programs regarding information on regulations, educational resources and assessment tools

**CME Objectives:** At completion of this program, the participant should be able to:

1. Provide information updates from residency regulatory organizations.
2. Share newly developed educational and assessment tools.
3. Address controversies in urology training programs.
4. Disseminate knowledge on resources for mentorship, volunteerism, and grant opportunities through SUCPD.

**Accreditation:** The American Urological Association (AUA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The AUA takes responsibility for the content, quality, and scientific integrity of this CME activity.
